EDUCATION AND TRAINING

RUTGERS, THE STATE UNIVERSITY OF NEW JERSEY   New Brunswick, NJ
Master of Information Technology and Analytics   May 2025
Bachelor of Science, Business Analytics and Information Technology (GPA 3.11)
Full-stack Coding Bootcamp Certificate   Mar 2019

PROFESSIONAL EXPERIENCE

Girls Who Code | Remote   Aug 2023 - Dec 2023
Internship (Leadership Academy hosted by Raytheon Technology)
- Established enduring connections within a collaborative community, fostering ongoing learning and networking with Raytheon mentors. Cultivated relationships that resulted in a 10% increase in collaborative project opportunities and knowledge-sharing initiatives.
- Led hands-on workshops, spearheading the development of a College Events Hubs application with two teammates using React, HTML, JavaScript, and CSS. Enhanced team proficiency by 25% and delivered a functional application used by 10+ students.

Blueprint | Piscataway, NJ   Feb 2023 - Apr 2023
UI/UX Design Fellowship
- Conceptualized and crafted a mobile application for the Surreal Creamery website, employing User Experience, User Interface, Product Design, Visual Design, and Prototyping techniques.
- Utilized Figma software to streamline the design process, ensuring a seamless and visually appealing user interface.

SKILLS

- Technical: Microsoft Office Suite (Word, PowerPoint)
- Computer programs including Git, GitHub, Dbeaver
- Computer-Aided Design: Photoshop, Figma
- Analytical: Data Analytics, Data Visualization, Statistical Analysis
- Data Tools: Excel Data Analysis, Tableau, Power BI
- Database: SQL, MySQL
- Programming Languages: Python, R, React, Java, JavaScript, CSS, JAVA

UNIVERSITY PROJECT

Technology Career Dataset | Dbeaver, Excel, MySQL
- Analyzed the 62,000 users' dataset from Kaggle.com and analyzed the trend of tech careers.
- Coded in Dbeaver program with SQL to find a popular career, salary, location, and time of employment.
- Created visuals to present to the class with the PowerPoint program
